## Assembly Guide

02

### Step 1 "Clamp" assembly step

Adhere the pad to the clamp base. Desk thickness from 15mm~70mm. Then fix the clamp on the desk. If desk thickness over 70mm, please adjust screws with 5mm Allen Key. (as figure a.)

### Step 2 "Pole" assembly step

Fix the clamp on the desk, use 4mm Allen key to secure the pole and clamp with 4 screws. Then put the plastic cover through the pole and check the pin position with the screw together. (as figure b.)

## Step 3

- (1) Please loosen the knob at first, and then apart the fixing lump.
- (2) Then, take VESA up. If it is difficult to take it up, you can take it by knocking slightly (as figure. C).

## Step 4

Insert the arm into the pole.  
Adjust the level of high to the most comfortable view.

Please avoid to pinch your hand during assembling the arm.

## Step 5

Use the lever to tighten the arm (as figure D.) or secure it with one screw (as figure E.) and then put in the plug.

## Step 6

Place LCD with facing downward on flat surface. Place VESA on the LCD back as figure and align to the screw holes. Secure them together with four screws. And then tighten them up with screwdriver (not provided).

75mmx75mm  
100mmx100mm  
VESA interface.

## Step 7

Insert the VESA (with LCD display on already) into the arm and press it down. Then secure fixing lump on VESA with knob (as figure down step 1. 2. 3)

## Step 8

Cable tie

Use cable tie supplied to finish cable management.

## Step 9

When the screw is loose, please use the Allen Key (5mm) to tighten the arm.
